

Crown Plaza Façade Refurbishment; Birmingham

18M Temporary Suspended Access Platform (TSP)

9M Temporary Suspended Platform adjacent to 18M TSP. (27M of powered suspended access)

11M TSP; Full width of gable end:

4 x 9M TSP's on main façade.

The main contractor "SISKS" chose ALPS and its modular Temporary Suspended Platforms to access all façades of the building to enable façade refurbishment tasks to be carried out.

A total of 74M's of Powered Suspended Platforms were installed by ALPS, all travelling vertically at 9M min' & each transporting operative's, equipment & materials to and from the work place.

ACCESS - LIFTING - PULLING & SAFETY
