

Taney Cable Stayed Bridge: Dublin. Pylon Top Access Platform

A-L-P-S is responsible for the maintenance and inspection of the pylon access platform used to access the top of the pylon.

A-L-P-S also delivers on-site training to all riggers & users of the suspended access system ensuring sufficient knowledge is passed to the users to enable them to install and use the equipment safely and as intended.

During the September 2005 site training session nine riggers and operators were inducted in all.

A-L-P-S is on-call for any emergency requirements involving the Suspended Access System and general pylon access maintenance applications.

Please call A-L-P-S for more information regarding custom Bridge & Building Access Systems
